

Attorney's Docket No.:14580-038001

Remarks

Reconsideration and allowance of the above referenced application are respectfully requested.

The claim objection to claim 8 has been obviated herein by amendment.

Claims 8 and 9 stand rejected under 35 USC 112, second paragraph, as being indefinite. These claims are amended herewith for definiteness.

Claims 1, 5-9 and 11 stand rejected over document number 2003/0098484. This contention is respectfully traversed. Claim 1 is directed to ferroelectric material between the elements. In contrast, Kim discloses only dielectric material between the elements. Therefore, claim 1 is completely patentable over Kim. The dependent claims should be allowable for analogous reasons. The secondary reference to Lee does not teach anything which would teach or suggest this subject matter. Therefore, each of the claims on file should be allowable.

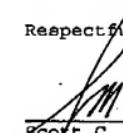

It is believed that all of the pending claims have been addressed in this paper. However, failure to address a specific rejection, issue or comment, does not signify agreement with or concession of that rejection, issue or comment. In addition, because the arguments made above are not intended to be exhaustive, there may be reasons for patentability of any or all pending claims (or other claims) that have not been expressed.

Attorney's Docket No.:14580-038001

Finally, nothing in this paper should be construed as an intent to concede any issue with regard to any claim, except as specifically stated in this paper, and the amendment of any claim does not necessarily signify concession of unpatentability of the claim prior to its amendment.

Applicant asks that all claims be allowed. It is believed no fee is due, however, please apply any other charges or credits to Deposit Account No. 06-1050.

Respectfully submitted,

Scott C. Harris
